TOWERS OF LIGHT SERIES

Lauren, Aiden and Ethan's parents have been taken by the darkness! Will they have the faith to take up the Full Armor of God to rescue Mother and Father and defeat the dark one?

The Towers of Light Series insightfully explores Christian values from the perspective of three children who must overcome insurmountable odds by faith alone.

RELEVANCE

- According to the USCB report, 5.22% of all school-age children in the United States were homeschooled from March to May 2022.
- The COVID-19 pandemic led to the homeschooling of more than 300 million students: During the pandemic, many parents were forced to take their children's education into their hands, which led to a tremendous spike in the number of homeschooled students.
- Research has found that young children whose parents read to them daily have been exposed to at least 290,000 more words by the time they enter kindergarten than kids who aren't read to regularly. And depending on how much daily reading time kids get, that number can go up to over a million words.
- Reading aloud to kids has clear cognitive benefits but it also strengthens children's social, emotional, and character development.
